

Appendix 4b Updates to the Policies Map

Replacement of 'Saved' Local Plan Policies and Policy Map Amendments

Adoption of the Core Strategy DPD in March 2011 resulted in the replacement of a range of Local Plan policies. Those which remained were 'saved' and so continued, alongside the Core Strategy, to form part of the Development Plan for the District.

The Allocations & Development Management Development Plan Document (DPD) will complete the replacement of the remaining saved Local Plan policies and therefore provide either for their direct cancellation or inclusion within a new policy approach. The Schedule of Replaced 'Saved' Local Plan Policies and Amendments to the Policies Map provides further detail on these changes.

Policies Map

The Newark & Sherwood Policies Map (previously referred to as the Proposal Map prior to the coming into force of the Town and Country Planning (Local Planning) (England) Regulations 2012), geographically expresses the policies of the Local Development Framework (LDF). The Policies Map will be revised and updated as new Development Plan Documents (DPDs) are adopted.

Therefore upon adoption of the Allocations & Development Management DPD the Policies Map will be amended to reflect the most up to date policies of the District's Development Plan. This revised Policies Map will form part of the Newark & Sherwood Local Development Framework. The table below shows the timeline of the Newark & Sherwood Policies Map.

This statement accompanies the Submission Allocations & Development Management DPD and details the changes to the Policies Map which will occur through the adoption of the DPD in its Submitted form.

Saved Local Plan Policies	<p>Adoption of the Core Strategy DPD in March 2011 resulted in the replacement of a range of Local Plan policies. Those which remained were however saved and so continued, alongside the Core Strategy, to form part of the Development Plan for the District.</p> <p>The Allocations & Development Management DPD will however</p>

The updated Policies Map will therefore consist of the following elements:

<p>Core Strategy (March 2011)</p>	<p>A number of the policy approaches within the Core Strategy have associated geographical expressions which are defined on the Policies Map. These include:</p> <ul style="list-style-type: none"> • Spatial Policy 7 ‘Sustainable Transport’- the locations of safeguarded highway or public transport schemes identified within the Nottinghamshire Local Transport Plan, the route of the Southern Link Road and the safeguarded land for a possible Newark Rail Flyover are defined on the Policies Map; • Spatial Policy 8 ‘Protecting and Promoting Leisure and Community Facilities’ – Sites subject to the protection of the Spatial Policy are identified on the Policies Map; • Core Policy 8 ‘Retail Hierarchy’ – The boundaries for the Town, District and Local Centres established within the Core Policy are defined on the Policies Map; • Core Policy 14 ‘Historic Environment’ –Scheduled Ancient Monuments, Conservation Areas and Historic Landscapes (the Historic Battlefield at Stoke Field and the Historic Landscape around Laxton) are shown on the Policies Map; • NAP2A ‘Land South of Newark’- The Land South of Newark Strategic Site Allocation is identified on the Policies Map; • NAP2B ‘Land East of Newark’ – The Land East of Newark Strategic Site Allocation is identified on the Policies Map; • NAP2C ‘Land around Fernwood’ – The Land around Fernwood Strategic site Allocation is identified on the Policies Map; • NAP4 ‘Southern Link Road’ – The route of the Southern Link Road is identified on the Policies Map;

<p>Amended Proposals Map (March 2011)</p>	<p>The Proposals Map (now referred to as the Policies Map) was amended in March 2011 to take account of the adoption of the Core Strategy DPD. These amendments continue to form part of the Policies Map and include:</p> <ul style="list-style-type: none"> • NAP2A Land South of Newark Strategic Site Allocation; • NAP2B Land East of Newark Strategic Site Allocation; • NAP2C Land around Fernwood Strategic Site Allocation; • NAP4 Southern Link Road route; and • Proposed Areas for Mineral Workings.
<p>Submission Allocations & Development Management DPD</p>	<p>The Submission Allocations & Development Management DPD contains a range of Inset Maps. These Maps define the location and extent of allocations and designations across the District and are linked to the policy approaches within the Submission DPD. These Inset Maps therefore form part of the Policies Map.</p> <p>In addition there are also a number of Development Management Policies whose implementation is linked to geographical expressions defined on the Policies Map.</p> <p>Further detail on these changes to the Policies Map is provided in the Schedule of Replaced 'Saved' Local Plan Policies and Amendments to the Policies Map.</p>
<p>Main Open Areas</p>	<p>Those Main Open Areas which are located outside of the settlements central to the delivering of the Spatial Strategy are included in Appendix D of the Submission Allocations & Development Management DPD. The extents of these Main Open Areas form part of the Policies Map and are related to the following policy approaches within the Submission DPD:</p> <ul style="list-style-type: none"> • NA/MOA, Newark Area – Main Open Areas; • SoA/MOA, Southwell Area – Main Open Areas; and • ShA/MOA, Sherwood Area – Main Open Areas.
<p>Nottingham – Derby Green Belt</p>	<p>The extent of the Nottingham – Derby Green Belt within the District is defined on the Policies Map under Spatial Policy 4A and remains unchanged.</p>

	<p>The review of internal boundaries, undertaken in line with Spatial Policy 4A, has however led to amendments being made to Green Belt boundaries for Blidworth, Lowdham and Rainworth. These amended internal Green Belt boundaries are defined on the Inset Maps within the Submission Allocations & Development Management DPD.</p>
<p>Matters of Fact</p>	<p>Also included on the Policies Map are those designations that are considered to be 'matters of fact'. As whilst their geographical expressions are linked to the implementation of policies within the Local Development Framework either:</p> <ul style="list-style-type: none"> • Newark & Sherwood District Council is not the responsible defining body; and/ or • Their location and extent is not subject to review through the preparation of the Allocations & Development Management DPD. <p>Accordingly the Policies Map reflects the current location and extent of these designations. However should these be subject to review and amendment then the Policies Map will be updated, as necessary, in order to reflect the most up to date definitions.</p> <p>The following therefore form part of the Policies Map:</p> <ul style="list-style-type: none"> • Birklands & Bilhaugh Special Area of Conservation (SAC); • Sites of Special Scientific Interest (SSSIs); • Sherwood Forest National Nature Reserve; • Local Nature Reserves; • Sites of Interest for Nature Conservation (SINCs); • Conservation Areas; • Scheduled Ancient Monuments; • Registered Historic Parks and Gardens; • Highway / Public Transport Schemes identified within the Local Transport Plan (Southwell and Kelham Bypasses); • Hazardous substance installations; and the • Groundwater Source Protection Zone.
