¹ The Integrated Impact Assessment (IIA) integrates Sustainability Appraisal (SA), Strategic Environmental Assessment (SEA), Equalities Impact Assessment (EqIA) and Health Impact Assessment (HIA). Sustainability Appraisals (SA) are a requirement of the Planning and Compulsory Purchase Act 2004 and Strategic Environmental Assessments (SEA) are required by European Directive EC/2001/42, which was transposed into UK law by the Environmental Assessment Regulations for Plans and Programmes (July 2004). The EqIA is a way of demonstrating the District Council is fulfilling the requirements of the Public Sector Equality Duty contained in section 149 of the Equality Act 2010. HIA is a recognised process for considering the health impacts of plans and undertaking this type of assessment is widely seen as best practice.

7. The DPD is not sound because it is not:

- (1) Positively Prepared
- (2) Justified
- (3) Effective
- (4) Consistent with national policy

9. Please set out what change(s) you consider necessary to make the DPD legally compliant or sound, having regard to the test you have identified at 6 above where this relates to soundness. You will need to say why this change will make the DPD legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

(Continue on a separate sheet/expand box if necessary)

Please note your Representation should cover succinctly all the information, evidence and supporting Information necessary to support/justify the Representation and the suggested change, as there will not normally be a subsequent opportunity to make further Representations based on the original

Dear Sir/Madam,

Consultation Response to Newark and Sherwood Second Publication Amended Allocations and Development Management DPD

RE: Land at Harrow Lane, Boughton

I write in relation to the above consultation and following our previous comments submitted to the earlier versions of the proposed Allocations and Development Management DPD. For the avoidance of doubt, the previous comments remain of relevance (but not repeated)/

Further comments are set out below:

Boughton (Page 78)

Within the emerging Plan, Ollerton and Boughton is stated to act as a 'Service Centre to a large population both in the Town and the surrounding Sherwood Area. The plan proposes to include some allocations where developments have already been undertaken and proposed 2 new Mixed use sites, but have not chosen to allocate the land at Harrow Lane. This land extends to c30 acres and has potential to deliver c15 acres/225 dwellings of residential land (on the western side of the site) and c15acres of employment land (on the eastern side of the site).

This land is well related to the settlement and local facilities and services. It is also not technically constrained and is available, deliverable and achievable for development in the short term. Avant has a legal interest in the land which would ensure that development would be forthcoming upon allocation of the site and we would work with the Council to bring the site forward in accordance with a mixed use Masterplan.

Boughton is identified as a sustainable settlement within the Plan and is well placed to accept further development at Harrow Lane in the short term. Worst case, this site should be identified as safeguarded land in order to enable development to come forward if the delivery of the other allocations is not forthcoming.

Policy DM2: Development on Allocated Sites

It is noted that this policy has been amended to remove the reference to Developer Contributions and Planning Obligations SPD. This deletion is supported by Avant and allows appropriate evidence at the relevant time to be taken into account. However, the Council should identify what evidence is expected to be relied upon i.e, SHELAA, 5YLS etc. By stating which evidence is likely to be used, developers would know exactly which evidence to review and consider in terms of understanding development opportunities on new sites.

Policy DM5a: The Design Process

Avant Homes consider that the changes to this policy are unsound and are not consistent with national policy. It is noted that the policy amendments include reference to the National Design Guide and locally adopted Design Codes and requires all new residential development to perform positively against Building for a Healthy Life.

Whilst Avant do seek to work in accordance with the Building for Healthy Life criteria, it is noted that this is not understood to be a 'standard' to be achieved, and aims to guide development as much as possible in terms of considering design and the creation of successful places. In that context, it is not considered appropriate to state that Developers should meet the standard of those objectives in Local Plan policy (when it is actually a voluntary position) – particularly, without setting out and understanding what would be specifically required as part of future development schemes.

Policy DM7 Biodiversity and Green Infrastructure

Avant consider that this Policy is unsound by virtue of it being outdated when considered against latest national policy. Biodiversity Net Gain is currently an area of continuous movement and the current position is that the implementation date for Mandatory Biodiversity Net Gain has been put back from November 23 to January 24, and additional guidance is emerging and expected.

Clearly, Avant Homes recognise the importance of Biodiversity, Net Gain and Green Infrastructure. However, any requirements need to be proportionate, reasonable and not stifle development unnecessary and timescales should be in line with those set by National Policy in order to avoid adding delays and complexity to an already slow planning system. Any policy requirement should therefore be set at a maximum of 10%

BNG required for a maximum of 30 years, with each site being assessed independently and as part of a greater understanding of wider issues and package of each development site.

In summary, Avant consider the following points need further review from the Council prior to adopting the Local Plan in its proposed format:

- The land at Harrow Lane, Boughton should be allocated for mixed use development in the short term. It is available, deliverable and achievable in terms of development and Avant have a legal interest in the land to ensure delivery of a suitable mixed use development site in the immediate/short-term. From our preliminary investigations, the site does not have any technical constraints and is located in a sustainable and complementary position to surrounding land uses.
- Design Policy DM5a is unnecessary restrictive;
- Affordable Housing (as per previous reps) remains in conflict with national policy; and,
- The policy position on Biodiversity needs updating and to be consistent with national policy.

I trust that the above is useful, but any further queries, please do not hesitate to contact me.

Yours Sincerely

For and on behalf of Avant Homes
